The high roller meaning is not hard to plumb. High roller or high limit slot machines are the offline or online slots that allow the large bets only. While most of the gamblers are playing slot games with small or average bets like 1-2 cents per spin, the high rollers can play on a \$100 slot machine. High rollers are the players that can spend dozens of thousands in the casino within a month and the most adventurous (and the richest) of them are called “whales”. Whales are the high rollers that can play slot machines with the highest stakes, up to a couple of thousands per one spin and easily leave millions in the casino. Whales are the most welcome guests in both offline and online casinos. The randomness of a coin flip is a good way to think about your potential for winning on pokies. A coin flip gives a player calling either “heads” or “tails” a 50/50 chance of winning. Without a built-in advantage, a poker machine would be much like a flipped coin – you wager \$1 on heads, pay \$1 if you lose, and earn \$1 if you win. Theoretically speaking over any amount of time in this even-money wager, you and the house would be even. The best pokies strategy is to scroll through the All Slots Online Casino games lobby, pick a few online pokies games that appeal to you, and try them out in the free “practice play” mode. So, when you find the game that you really like, start playing the online pokies for real money. If you’re still undecided and you want a friendly tip, we recommend the Fruit Slots 3-reel pokies and the Great Galaxy Grab 5-reel pokies. 21 casino promo code
