If you looked at the odds on your sportsbook yesterday, then looked again today and they changed, there are many underlying factors that could attribute to that line move. Let's say, you've been watching a game between Team A (-140) and Team B (+400). Things are not looking good for Team B this game, so you might be inclined to bet the favourite, Team A, but the next day, their star player gets injured in practice. Oddsmakers will immediately take that into consideration and adjust the lines to reflect that. Given the impact this injured player has on the team, odds for Team A could shift to -110 and odds for Team B could shift to +120. There are many other factors that can lead to line moves, it could even be something as simple as too many bettors taking the underdog or betting the over. The classic spooky style slot machine game is the Frankenstein by NetEnt. This Universal studio-licensed slot is based on the famous movie about Dr. Frankenstein and his spooky creature. The game is famous for its detailed high-end graphics and advanced features such as Lightning and Fire Wilds. NetEnt are the kings of horror slots and their next game Zombies is even more creepy than the Frankenstein. If you are a fan of classic 3-reel slots, you can try the Spooks and Ladders or the Trick or Treat games by Microgaming that are also quite nice.
