Vegas Downtown Blackjack is the version of classic blackjack with the set of features which make it absolute unique. Basic online blackjack rules are the same for all versions, but there are few exceptions: The dealer should always stand on "hard" 17 or higher, and hit on "soft" 17. If an Ace or 10-value card was drawn – the Deposit Bonuses are arguably the most common form of Online Casino Rewards in Australia and around the world. These deals will give you a return on your first deposit or deposits in the form of a percentage of what you put in. Now the mistake many make is simply looking at the size of the percentage rather than what it equates to, as there will be a limit in how much you can claim. So a 100% bonus sounds more enticing than a 50% bonus, as it essentially means the money you put in will be doubled. However if the 100% prize is only on deposits of up to say 100 credits, you'll get no more than 100 free credits. Whereas if the 50% bonus offer is on deposits of up to 500 credits, you'll get 250 credits free, and that's a far more rewarding deal even though you have to put in more to get it. To simplify matters the casino will usually advertise the total number of free credits that can be claimed with the maximum deposit sizes. Of course it is the video slots that we are all here from and you will be glad to know that you will come across a great selection of providers including; GamesOS/CTXM, NetEnt, and Playtech. So what are the reasons for playing high roller slot machines? First of all, these slots have the higher payout. That's obvious — when you make a higher bet, you win more money, the luck permits. The high limit slots odds are usually higher than those of regular slot machines as the casino owners are trying to make the best use of small bet slots that are played more frequently and that's why increase the house edge for them. As slots with high limit are played not so often but are very lucrative for the casino, their RTP is higher and the high limit slot wins can happen relatively more often. Another reason for playing high limit slots is that they can bring you the most of the excitement and real gambling spirit. Playing a penny-slot is easy and after a certain period of time just stops being exciting. When you are playing on the 500 dollar slot machine, each spin strikes a chord in your soul, the time stops and there are only two of you — the gambler and the high limit slot. The problem is, one of you will lose the game but who cares when the reels are spinning? Gaming software providers are constantly producing new online pokies games.
