As a quick overview, the game is played with 2 decks of regular playing cards, shuffled prior to every round. The dealer must stand on a hand of 17. The player wins if he beats the dealer with a hand of 21 points or fewer, meaning the dealer's hand is worth less or the dealer busts (gets more than 21 points). Winning will award the player a payout according to the value of his hand. If he wins the side bet (predicts whether his first 2 cards will be the same suit), he will receive an additional payout of 5:2 for any 2 same suit cards, 25:1 for an ace and a jack of the same suit, and 50:1 for an ace and a jack of spades.
